service is now easily accessible at +91.924.360.8814

Sports Wooden floors need periodic maintenance, just like your Car needs regular service!

Everyday your Members need your Sports facilities to be ready for their action. And you need trained professionals readily available for keeping it that way. Our years of experience combined with expertise enable us to deliver just that - all the needs of your Badminton & Squash Courts from right maintenance to technically sound installation. Increasing standards year on year that can keep your sports stadiums ready to uplift your Members Spirits.

Sanding

Conforming to *World Squash Federation* floor specifications, Sanding will restore firm foot-grip. It removes undulations from your wooden floors to help you regain your balance back on the even surface. We employ the right equipments & accessories in the process, so you rest confident of the quality of the result. Fresh look like new floor!

Line Markings

A clearly visible court line-marking is imperative for players of quick moving sports. The lines not only empower players judgments but also improves the look of your courts. *ClearMark* is the standard line-markings within the play court boundaries.

Squash Walls Repainting

Play-area Wall repaintings are a periodic infrequent necessity to bring back the clean look on walls. This must be carried out with proper material & application methods to rectify the undulations resulting in level finish. We apply water-based matt squash wall paints or equivalents that are durable.

Organic AntiSkid Coating

AntiSkid is an organic traditional surface coating that ensures firm foot-grip to players during play on the wooden courts. It is the most important prerequisite that not only assures safety but also makes the indoor sport possible on a slippery floor. Your members will love their playing experience on *AntiSkid* applied floors !

Global Standards

We also can refinish your existing floors with German *DIN Certified* Products. This is an Internationally recognized Standard for slip-resistance on Sports Wooden floors. Also accepted by *Badminton World Federation & World Squash Federation*.

Floor Repairs

Wooden Planks Replacement must be immediately addressed when there is a damage to the floor. It is necessary when the sports floors is to be retained in a safe play-worthy condition. This also saves your spend on major refurbishments accruing due to postponements. You can rest assured we will restore your wooden floor quickly, matching the existing plank sizes & similar colors using the best quality wood available.
